The Chicago Record says: The situation in May oats is getting interesting and short begin to feel that a severe squeeze is in prospect. The contract stocks are only about 500,000 bunhels, while it is evident that the market is heavily oversold. A few weeks ago Leiter sold out a line of 8,000,000 to 10,000,000 bunhels around 27c. It was a mantery why he did so, as there were then only about 500,000 bushels in store. But some interest appears to have picked up the deal where Leiter dropped it, and shorts begin to look for trouble.

New York, April 30.—There was quite an extensive taking of profits to-day after the three days advance in prices. The realizing sales clipped of something from the day's extreme advance, leaving net gains in the railroad list mostly fractional. In some of the specialties, notably Sugar, there remained over a point of net gain. The built leaders this morning had to face the sentimental effect of carly declines for Americans in London extending to nearly a point in some cases. This meant that any advance in prices here would have to carry the burdon of arbitrage salest. Prices were, however, bid up at every appearance of confidence and the offerings of the arbitrage brokers were quickly absorbed. Sugar mounted nearly 4 points and the other leading speculative stocks a point or over. The safe arrival of the steamship Paris was adduced as a built argument and there were vague rumors circulated that private information had been received in the street that the United States squadron had already fought a successful engagement off the Phillippines. The aggressive leadership of the big buils, coupled with these rumors, kindled the enthusiasm of buyers and the small traders followed the lead of the big once. Quite a fair amount of commission house buying was also done. But while business was still active and on the larre scale the ical of the big ones. Quite a fair amount of commission house buying was also done. But while business was still active and on the large scale atocks began to be supplied. The offerings were sufficient to feed the demand, and prices cassed to advance, and before long commenced a retrograde movement. Before the reaction had proceeded far the supply ceased. Meantime a handsome total of stocks had been marketed at the advance and sellers felt the comfortable assurance that their paper profits had been turned into cash in the event of an unfavorable turn in any events over Sunday. There was some renewal of the buying demand in the second hour, but it did not reach large proportions and the recoveries in prices after the reaction were not important.

Dry Goods.

New York, April 30.—There has been a growth of interest in dry goods during the past week, and the close shows more activity in the district than has been the case heretofore. The goods needed for army use include Canton fiannels, corset jeans, black padding, black silenias, drilling, unbleached muslin, ten and twelve-ounce cotton duck and tent drill, and in woolens blouse fiannels, dark blue shirtings, fiannels, kerseys, lining fiannels and blankets have shown a stronger market all around on the strength of a well distributed interest shown by prospective bidders. This has of course influenced the general market for all kinds of goods in the service, several divisions affected, and the result has been a more satisfactory market all around, and more hopeful future for sell-ers. Print cloths have shown poor results through the week. Woolens show slightly more activity for fall. The market has been strengthened by the demand for government use for all wool goods. Sales have been a degree heavier during the week.

Kansas City, Missouri, at Kansas City, division No. 2, for a discharge from said trust.

Owned by Crocker & Tate-Another Large Herd Owned by John T. Long Will Be Shipped From

California to Omaha.

Sacramento, Cal., April 30.-Dr. C. H. Blemer, inspector of the United States bureau of animal industry, who has been stationed here by the government to super-intend the departure of cattle from this state, has received word from an assistant state, has received word from an assistant at Mercedes that permits had been is-sued for the transportation of 18,000 ani-mals to Nebraska. The herd is owned by Crocker & Tate. Another herd owned by John T. Long, of Amador, will be ship-ped to South Omaha, Neb.

As the season advances Mexican cattle are coming in more freely and a very good business is being done in them in spite of the import duty. Joseph W. Parker, of the bureau of animal industry here, furnishes the following as compiled from the reports of inspectors on the border, to Colonel Albert Dean:

Good rains have been had recently throughout most of Texas and the cattlemen there are in better spirits. George T. Hume, of Austin, who was at the yards yesterday, says grass is now good over most of the state, and no cattle will have to move now for the want of pasture, and cattle owners feel more independent. Cattle are selling \$3.00 to \$5.00 per head higher than a year ago. The fact that the beef cattle market is no higher than last season cuts no figure in Texas. Ranchmen have set their figures and they go at that or not at all.

Southern cattle are coming in more free-ly than a year ago. The receipts in the Texas division during April were 432 cars, an increase of eighty-two cars over the same month last year.

Hogs are not only coming in much more freely than a year ago, but are selling higher. The bulk of sales here yesterday were \$3.70 to \$3.90, against \$3.70 to \$3.75 the same day last year.

Yesterday closed the most active April ever known in the hog market here. The receipts for the month reached 303,500, the largest April receipts ever reported. The same month last year the receipts were 259,908, an increase of 43,625, and 59,713 more than the same month in 1896.
